Updated Notice for a Campus Placement Drive (Copy of this notice should NOT be put on blogs/Facebook/ social media etc)

We are pleased to announce that **Tata Consultancy Services Ltd (TCS)** is going to conduct **TCS National Qualifier Test (NQT)** for **Priority Institutes** for the students of **2027 passing out batch**. The details are as follows:

About the Company: Tata Consultancy Services (TCS) is the technology partner of choice for industry leading organizations worldwide. Since its inception in 1968, TCS has upheld the highest standards of innovation, engineering excellence, and customer service. It has set an aspiration to become the world's largest AI-led technology services company and is enabling its clients to transform themselves across the full AI stack, from infrastructure to intelligence. Rooted in the heritage of the Tata Group, TCS is focused on creating long term value for its clients, its investors, its employees, and the community at large. With a highly skilled workforce spread across 55 countries and 202 service delivery centers across the world, the company has been recognized as a top employer in six continents. With the ability to rapidly apply and scale new technologies, the company has built long term partnerships with its clients – helping them emerge as perpetually adaptive enterprises. Many of these relationships have endured into decades and navigated every technology cycle, from mainframes in the 1970s to artificial intelligence today. **TCS sponsors 14 of the world's most prestigious marathons** and endurance events, including the TCS New York City Marathon, TCS London Marathon and TCS Sydney Marathon with a focus on promoting health, sustainability, and community empowerment. Caution against fraudulent job offers: TCS doesn't charge any fee throughout the recruitment process. Refer here: <https://www.tcs.com/careers/india/recruitment-fraud-alert>.

AI-focused Career Opportunities for Students

Students hired through this drive may be aligned to future-ready work across areas such as AI and data engineering, machine learning, deep learning and GenAI, cloud data platforms, intelligent automation, and AI-enabled software engineering.

Career pathways may include AI and Data tracks, including roles such as ML Engineer and GenAI-focused engineering roles, along with broader digital roles where AI is embedded into delivery.

As the industry landscape undergoes significant shifts in required skills and expertise, TCS offers students a strong opportunity to remain relevant, continuously upskill, and build careers for the new era.

Disclaimer

- Eligibility checks will be conducted at various stages of the hiring process
- Any ineligible candidature or misrepresentation of information will lead to disqualification.
 - TCS does not send job offers or hiring-related communications from unofficial email IDs such as Gmail, Rediffmail, Yahoo Mail, Hotmail, etc.
 - TCS does not ask candidates to pay any money during the recruitment process.
 - TCS is not associated with any external agency or company for employment offers.
